FINANCIAL STATEMENTS FOR THE TWENTIETH FISCAL PERIOD

(September 1, 2015 — February 29, 2016)

To Our Unitholders

We offer our deep gratitude for your unwavering support of Daiwa House Residential Investment Corporation ("DHI"). DHI celebrated the 10th anniversary of its listing on the stock exchange on March 22, 2016. This is primarily due to the understanding and support of our unitholders and we are deeply grateful for that.

Furthermore, we at DHI would like to express our deepest sympathies to all those who have been devastated by the 2016 Kumamoto earthquake. We hope for a swift recovery.

The following is a report concerning the operations and finances for the 20th fiscal period (from September 1, 2015 to February 29, 2016).

DHI acquired Castalia Kyoto Nishioji (acquisition price: ¥973 million) in November 2015.

As a result, we have achieved steady external growth, with total asset holdings as of the end of the current fiscal period (February 29, 2016) amounted to 142 properties (11,426 leasable units), with a total value of ¥256.3 billion (acquisition price basis).

Management of properties held by DHI was also favorable with an average occupancy rate for the current fiscal period of 96.1%, and an occupancy rate as of the end of February 2016 of 96.0%.

Our performance exceeded the forecast occupancy rate of 95.0%, which was announced in the financial report for the previous fiscal period, and as a result of upwardly revising rent upon tenant replacement, we recorded operating revenue of ¥9,662 million, which is ¥96 million in excess of the forecast of results.

In addition, earnings were positive, so we brought forward the repair and restoration works etc. that had been scheduled for the next fiscal period onward, in order to relieve future burden. As a result, we recorded operating income of ¥3,947 million, which is ¥7 million in excess of the forecast of results.

Furthermore, as a result of greatly reducing the interest on borrowings upon refinancing of ¥10.5 billion conducted in December, 2015, we recorded ordinary income and net income of ¥3,177 million each, which was around ¥19 million in excess of forecast of results in each category.

With regard to distributions, in addition to the reversal of ¥200 million from internal reserves (¥268 per investment unit), which is the amount equivalent to 10% of the amount equivalent to depreciation and amortization, we retained ¥12 million as internal reserves as allowance for restoration expenses, in accordance with DHI's distribution policy. Thus the total distribution amounted to ¥3,365 million or ¥4,501 per investment unit (an increase of ¥11 over forecast of results).

DHI concluded a merger agreement with Daiwa House REIT Investment Corporation on April 15, 2016. Through this merger, we will endeavor to provide maximum value to unitholders through ensuring stable revenue and steady growth of portfolio, while leveraging the integrated capabilities and know-how of the Daiwa House Group to the maximum extent possible.

In closing, we ask for the continued support and understanding of our unitholders and the investment community as we move forward.

Daiwa House Residential Investment Corporation

Notes to Financial Statements

For the period from March 1, 2015 to August 31, 2015
and for the period from September 1, 2015 to February 29, 2016

1. Organization and Basis of Presentation

(a) Organization

Daiwa House Residential Investment Corporation (“DHI”), a Japanese real estate investment corporation, was established on June 7, 2005 with an initial capitalization of ¥300 million under the Law Concerning Investment Trusts and Investment Corporations of Japan, or the Investment Trust Law. DHI was formed to invest primarily in residential and retail properties in Japan. DHI is externally managed by a licensed asset management company, Daiwa House Asset Management Co., Ltd.

DHI has concentrated on its beautiful life and residence vision by focusing its investment efforts on real estate properties and aims to build a hybrid portfolio to secure stable revenues in the mid- to long-term periods. By selecting properties suitable for modern lifestyle that appeal to tenants and consumers residential properties using strict but transparent and high standards such as by considering the area, building quality and amenities, DHI aims to gain steady growth for its portfolio and expand its primary investment income.

(b) Basis of presentation

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Law, the Financial Instruments and Exchange Law of Japan and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan (“Japanese GAAP”), which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements have been compiled and translated into English (with certain reclassifications and expanded descriptions) from the financial statements of DHI prepared in accordance with Japanese GAAP and filed with the Kanto Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Law.

In preparing the accompanying financial statements, relevant notes have been added and certain reclassifications have been made to the financial statements issued domestically in order to present them in a form that is more familiar to readers outside Japan. DHI’s fiscal period is a six-month period which ends at the end of February or August of each year. DHI has not prepared consolidated financial statements as it has no subsidiaries.

1. Organization and Basis of Presentation (continued)

The U.S. dollar amounts in the accompanying financial statements have been translated from yen amounts solely for the convenience of readers outside Japan and, as a matter of arithmetic computation only, at ¥113.62 = U.S.\$1.00, the rate of exchange prevailing on February 29, 2016. This translation should not be construed as a representation that yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at the above or any other rate.

2. Summary of Significant Accounting Policies

(a) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and in trust, bank deposits and deposits in trust redeemable on demand, and short-term investments, which are readily convertible to cash, with an original maturity of three months or less, and an insignificant risk of price fluctuation.

(b) Property and equipment

Property and equipment are stated at cost. Depreciation of property and equipment is calculated on a straight-line basis over the estimated useful lives of the respective assets ranging as stated below:

Buildings	2 – 69 years
Structures	6 – 63 years
Machinery and equipment	7 – 29 years
Tools, furniture and fixtures	2 – 28 years

(c) Intangible fixed assets

Amortization of intangible fixed assets is calculated on a straight-line basis.

The estimated useful life of software is 5 years.

Leasehold rights (fixed-term land lease rights in general) are amortized on a straight-line basis over the life of each contract.

(d) Investment corporation bond issuance costs

Investment corporation bond issuance costs are amortized on a straight-line basis over the term of the bonds.

(e) Revenue recognition

Revenues from leasing of property are recognized on a straight-line accrual basis over the life of each lease contract.

(f) Taxes on property and equipment

Property and equipment are subject to various taxes, such as property taxes and city planning taxes. An owner of a property is registered in a record maintained by the local government of the applicable jurisdiction, and taxes are imposed on the owner registered in the record as of January 1, based on an assessment made by the local government. The taxes are determined in April to June each year and are paid in four installments during the year.

When a property is purchased prior to January 1 of any given calendar year, taxes for the previous year are imposed on the seller. DHI pays the seller the corresponding amount of the taxes for the period from the property's disposition date to December 31 of the previous year as included in the purchase price of the property, and capitalizes this amount as a cost of the property.

(g) Income taxes

Deferred tax assets and liabilities are computed based on the differences between the financial reporting and income tax bases of assets and liabilities using the enacted tax rates.

(h) Allowance for doubtful accounts

Allowance for doubtful accounts is provided at the amount considered sufficient to cover possible losses on collection.

(i) Consumption taxes

Consumption taxes withheld and consumption taxes paid are not included in the accompanying statements of income and retained earnings. Non-deductible consumption taxes for acquisition of assets are added on to the acquisition cost of each asset.

(j) Trust beneficiary interests

For trust beneficiary interests in real estate, each of the trust assets and liabilities as well as all income generated and expenses incurred in trusts are recorded in the relevant balance sheet and income statement accounts.

(k) Derivatives and hedge accounting

(1) Derivatives and hedge accounting

DHI adopts deferral hedge accounting. However, the special treatment is applied for interest-rate swaps that meet certain conditions.

(2) Hedging instruments and hedged items

Hedging instruments:	Interest-rate swaps
Hedged items:	Interest rates on loans

(3) Hedging policy

DHI utilizes derivative financial instruments in accordance with basic risk management policies for the purpose of hedging risks specified in its bylaws.

(4) Method of evaluating hedge effectiveness

Hedging effectiveness is assessed and validated by comparing the cumulative gains or losses on the hedging instrument with the cumulative gains or losses the underlying hedged item. However, the evaluation of hedging effectiveness is omitted for interest-rate swaps meeting specific criteria.

3. Cash and Cash Equivalents

A reconciliation of cash and bank deposits in the accompanying balance sheets at August 31, 2015 and February 29, 2016 with cash and cash equivalents in the accompanying statements of cash flows is as follows:

7. Financial Instruments

1. Status of Financial Instruments

(a) Policy for the use of financial instruments

As a policy, when acquiring real estate and other properties, as well as when repaying its obligations, DHI raises necessary funds through loans from banks, issuance of investment corporation bonds and issuance of investment units, etc. As for financing efforts, DHI carefully pays attention to the long-term, cost effectiveness and soundness of the financial instruments, while considering the diversification of financial methods and repayment deadlines.

DHI may use derivative financial instruments for such purposes as hedging interest rate fluctuation risk, but does not engage in speculative transactions using these instruments. DHI currently uses interest-rate swaps to hedge interest rate fluctuation risk.

Surplus funds can be invested in securities or monetary claims, however, as a current policy of DHI, they are deposited in interest-bearing accounts.

(b) Details of financial instruments, related risks and risk management system

Asset management companies stipulate basic provisions of risk management in their risk management rules.

Investment corporation bonds and loans are used to finance such efforts as acquisition of real estate and repayment of loans. These financial instruments are exposed to liquidity risk, though DHI controls such risk by maintaining the ratio of interest-bearing debt to total assets under a certain percentage, diversifying repayment deadlines, and retaining a certain amount of highly liquid cash and deposits.

For floating rate borrowings exposed to the risk of interest rate fluctuations, DHI, in order to reduce the impact caused by rising interest rates, closely watches the movement of interest rates, and intends to increase the ratio of fixed rate loans, etc.

Deposits are exposed to credit risks, including collapse of the financial institutions where deposits are made, and, thus, are managed through the use of liquid deposits.

(c) Supplementary explanation concerning fair value of financial instruments

The fair values of financial instruments are determined by market prices, and in the case of financial instruments without observable market prices, reasonable estimates are included in valuation. Since certain assumptions are used to measure applicable fair values, the amounts are subject to change under the different assumptions.

7. Financial Instruments (continued)

2. Fair Value of Financial Instruments

The book value on the balance sheet, fair value and the difference as of August 31, 2015 and February 29, 2016 are as follows.

	As of August 31, 2015		
	<i>(Thousands of yen)</i>		
	Book Value	Fair Value	Difference

(6) Derivatives	—	—	—

7. Financial Instruments (continued)

(Note 1) Methods of calculating the fair values of financial instruments.

(1) Cash and bank deposits (including trust accounts)

These instruments are settled in the short term and their fair values are approximately equal to their book values, thus, the measurement is based on their book values.

(2) Short-term loans

These instruments carry floating interest rates, and their fair values are approximately equal to their book values, thus, the measurement is based on their book values.

(4) Investment corporation bonds

The fair value of these bonds is measured as the present value, which is calculated by discounting the combined total of principal and interest by the interest rate determined taking into account the current maturity and corresponding credit risk.

(3) Current portion of long-term loans and (5) Long-term loans

These instruments carry floating interest rates, and their fair value is approximately equal to their book value, thus, the measurement is based on their book value. However, for long-term loans carrying floating interest rates that are hedged by interest-rate swaps meeting hedge accounting criteria, DHI employs a method to calculate the fair value by discounting the combined total of principal and interest under a separate accounting treatment as part of the corresponding interest-rate swaps, using an estimate of the interest rate to be applied to similar types of loans.

Those with fixed interest rates are measured based on a calculation method where the total principal is discounted at a reasonably estimated rate that would be applied if similar long-term loans and rehabilitation obligations (loans) were entered into.

9. Asset Retirement Obligations

1. Details of applicable asset retirement obligations

DHI has entered into agreements involving fixed-term land lease rights with the landowners of assets of the Company, and recognizes asset retirement obligations associated with restoration obligations upon expiration of the lease agreements.

2. Methods of calculating the amounts of applicable asset retirement obligations

DHI estimates the useful life of applicable assets as the remaining agreement period of the applicable fixed-term land lease rights (54-60 years), and uses a 2.1%-2.4% discount rate for the calculation of applicable asset retirement obligations.

3. Changes in applicable asset retirement obligations

	From March 1, 2015 to August 31, 2015
	<i>(Thousands of yen)</i>
Balance at beginning of the period	¥410,420

Fair value at end of the period	273,723,000	278,340,000	2,449,744

(Note 1) The book value on the balance sheet is the acquisition cost less accumulated depreciation.

(Note 2) The change during the period ended August 31, 2015 includes an increase of (¥19,000,210 thousand) primarily due to the acquisition of Royal Parks SEASIR, Castalia Honkomagome, Pacific Royal Court Minatomirai Urban Tower, L-Place Shinkoyasu and Royal Parks Musasikosugi and a decrease primarily due to depreciation and amortization.

The change during the period ended February 29, 2016 includes an increase of (¥1,054,104 thousand) (\$9,277 thousand) primarily due to the acquisition of Castalia Kyoto Nishioji and a decrease primarily due to depreciation and amortization.

(Note 3) The fair value at end of the period represents the value assessed by a third-party real estate appraiser.

The profit or loss regarding rental and other real estate properties are as shown in “7. Details of Rental Revenues and Expenses.”

11. Segment Information

1. Segment Information

Since DHI has been engaged in a single segment of the real estate leasing business, and there is no other business segment for disclosure, segment information has been omitted.

2. Related Information

(1) Information about products and services

Since operating revenues from external customers for a single segment of product and service account for over 90% of total operating revenues in DHI's statements of income and retained earnings for the periods ended August 31, 2015 and February 29, 2016, information about products and services has been omitted.

(2) Information about geographic areas

(a) Operating revenues

15. Net Assets

DHI shall maintain net assets of at least ¥50,000 thousand (\$440 thousand) as required by Clause 4 of Article 67 of the Investment Trust Law.

16. Significant Subsequent Events

(a) For the period from March 1, 2015 to August 31, 2015

1. Cash dividends

On October 8, 2015, DHI's Board of Directors approved a resolution for the payment of cash dividends of ¥4,460 per unit, aggregating to ¥3,334,920,400, to unitholders of record as of August 31, 2015.

(Method of calculation of cash dividends)

In accordance with Section 37.1.1 of the bylaws set forth by DHI for distributions of cash dividends, the amount of dividends payable is limited by the amount of income and more than 90% of income available for distribution of dividends of DHI as set forth in Section 67.15 of the Special Taxation Measures Law.

Also, DHI implemented its policy of stabilized distributions by utilizing the reserve fund for distribution. In accordance with the foresaid policy, ¥3,334,920,400 (¥4,460 per unit) was set as the amount for distribution of dividends.

The amount is the total of the current period's unappropriated income of ¥3,145,903,429 and the reversal of reserve for distribution of ¥189,016,971.

No cash distribution exceeding the income amount set forth in Section 37.1.2 of the bylaws of DHI shall be made.

(b) For the period from September 1, 2015 to February 29, 2016

1. Cash dividends

On April 15, 2016, DHI's Board of Directors approved a resolution for the payment of cash dividends of ¥4,501 (\$39) per unit, aggregating to ¥3,365,577,740 (\$29,621,349), to unitholders of record as of February 29, 2016.

(Method of calculation of cash dividends)

In accordance with Section 37.1.1 of the bylaws set forth by DHI for distributions of cash dividends, the amount of dividends payable is limited by the amount of income and more than 90% of income available for distribution of dividends of DHI as set forth in Section 67.15 of the Special Taxation Measures Law.

Also, DHI implemented its policy of stabilized distributions by utilizing the reserve fund for distribution. In accordance with the foresaid policy, ¥3,365,577,740 (\$29,621,349) (¥4,501 per unit) (\$39 per unit) was set as the amount for distribution of dividends.

The amount is the total of the current period's unappropriated income of ¥3,177,139,345 (\$27,962,852) and the reversal of reserve for distribution of ¥200,892,593 (\$1,768,109) less provision of reserve for distribution of ¥12,454,198 (\$109,612).

No cash distribution exceeding the income amount set forth in Section 37.1.2 of the bylaws of DHI shall be made.

3. Merger between DHI and Daiwa House REIT Investment Corporation

DHI and Daiwa House REIT Investment Corporation (hereinafter referred to as “DHR”) resolved at meetings of their respective Boards of Directors held on April 15, 2016 to execute a merger (hereinafter referred to as the “Merger”), coming into effect on September 1, 2016 and concluded the merger agreement (hereinafter referred to as the “Merger Agreement”) as of April 15, 2016.

(1) Major reason for business combination

DHI and DHR (collectively referred to as the “Investment Corporations”) have to date used their individual strengths to work towards securing stable income over the medium to long term and steadily growing their assets, with the aim of sustainably increasing unitholder value. However, each faces its own challenges: DHI’s LTV ratio remains high, and its portfolio specialized in residential properties offers limited opportunities for internal growth, while DHR has few available strategies for positioning in the logistics REIT sector or for efficiently swapping out investments and achieving internal growth at its current portfolio size.

Under these circumstances, for addressing these challenges and promoting the future growth of both companies, the Investment Corporations determined that the Merger was the most effective strategy for maximizing unitholder value based on stable income and stabilized/improved distribution through solid growth of the portfolio. As such, the Investment Corporations have executed the Merger Agreement as of April 15, 2016.

(2) Date of business combination

September 1, 2016 (Scheduled)

(3) Legal form of the merger

An “absorption-type merger” in which DHI will be the surviving company and DHR will be the absorbed company

(4) Name of the investment corporation after the date of business combination

Daiwa House REIT Investment Corporation (the name is scheduled to be changed from Daiwa House Residential Investment Corporation to Daiwa House REIT Investment Corporation on September 1, 2016)

(5) Merger ratio

In the Merger, 1 investment unit of DHR will be exchanged for 2.2 investment units of DHI. As a result, for DHR’s unitholders, the number of investment units granted will include fractions of less than one unit. These fractional investment units shall, in

accordance with the provisions of the law, be sold in the market and the proceeds from the sale of these fractional units shall be granted to the unitholders in proportion to their fractional units.

(6) Cash distributions on merger

Instead of cash distributions to DHR's unitholders for the operating period ending on the day before the date on which the merger comes into effect, DHI will make a cash distribution within a reasonable period of time after the date on which the merger becomes effective, to the unitholders listed or recorded in the final unitholders' register as of the date on which the merger comes into effect ("Allotted Unitholders") consisting of a distribution amount equivalent to the cash distribution for the same operating period (DHR's distributable earnings for the period up to the day before the date on which the Merger comes into effect, divided by the number of investment units issued and outstanding of DHR on the day before the date on which the merger comes into effect, from which investment units held by unitholders other than the Allotted Unitholders have been deducted).

4. Acquisition of assets

On April 15, 2016, DHI concluded an agreement to acquire the following assets, and intends to acquire said assets, with the effectuation of the merger as a condition precedent.

Property name	Castalia Ningyocho III (Roygent Ningyocho) (Note 3)
Asset type	Trust beneficiary rights in real estate (Note 4)
Expected acquisition price (Note 1) (Thousands of yen) (Thousands of U.S. dollars)	¥2,000,000 (\$17,602)
Seller (Note 2)	Daiwa House Industry Co., Ltd.
Date of purchase agreement	April 15, 2016
Scheduled acquisition date	September 28, 2016
Funds for acquisition	Loans and own funds
Property name	Royal Parks Umejima
Asset type	Trust beneficiary rights in real estate (Note 4)
Expected acquisition price (Note 1) (Thousands of yen) (Thousands of U.S. dollars)	¥2,020,000 (\$17,778)
Seller (Note 2)	Daiwa House Industry Co., Ltd.
Date of purchase agreement	April 15, 2016
Scheduled acquisition date	September 28, 2016
Funds for acquisition	Loans and own funds

(Note 1) Acquisition price does not include expenses incurred in connection with the acquisition, settlement of taxes and public dues, and consumption taxes.

(Note 2) As the seller is a party having a special interest in DHI and or the Asset Manager, the transaction was executed in accordance with certain procedures prescribed in the internal rule "regulations on transactions with interested parties" of the Asset Manager.

(Note 3) DHI plans to change the property name. The new name is provided with the current name as of April 15, 2016 in parentheses.

(Note 4) The asset to be acquired represents physical real estate as of April 15, 2016. By the planned acquisition date, the current owner will entrust the property to a trustee, and DHI will acquire trust beneficiary rights in the entrusted property.

On April 15, 2016, DHR concluded an agreement to the effect that it will acquire D Project Hibiki Nada, D Project Morioka II, Sports Depo and Golf 5 Kokurahigashi

IC store and Naha Shin-Toshin Center Building (Daiwa Roynet Hotel Naha-Omoromachi) on September 28, 2016.

DHI is scheduled to inherit the position, rights and obligations of the buyer as per the purchase agreement for the assets DHR is scheduled to acquire.

The effectuation of the merger is a condition precedent to the planned acquisition of these assets.
